Common Threads, Contrasting Cloths is an exhibition of works by Judi Miller (Kanata) and the late Sue Clark (Vancouver Island), two artists recognized by the MVTM in 2020 with awards for their innovative work in textile. This show brings together a wide variety of works by Miller and Clark that highlight their mastery of machine embroidery and hand stitching, respectively.

Guest curated by Miranda Bouchard, this collection offers insight into everyday beauties appreciated and immortalized in thread and fabric by their creators: moments in time that remind us to pause and appreciate both the grandiosity of the natural world around us, and the minute details that comprise it.
